

User Story

Most existing applications for managing condominiums, are complicated or full of unnecessary information. Managers often are not focused only on this, so they need a simple tool to use, versatile, clear and in real time, in which you can review all the important administrative information of each subsidiary, from anywhere in the region.

This application, using **Fiori UX**, will allow to the condominium administrator to have all of the basic and important information related to each subsidiary, and allows to get in touch with the owners/residents in real time. The main objective is that the administrator has the important information at hand in one application

The application will be fully utilize by the Administrator to:

- Display/Edit general information for each subsidiaries
- Monitor the status of each subsidiary account in the condo (maintenance fee, utilities, etc.)
- Send payment reminder when there is a pending payment
- Maintain constant communication with residents and owners

Point of View

USER Sarah, our administrator
NEED A WAY TO Needs a way to improve the management of the condominium
SURPRISINGLY / BECAUSE / BUT / SO THAT So that she can enhance response times and has a better control of her tasks

Sarah, our administrator, needs a way to improve the management of the condominium so that she can enhance response times and has a better control of her tasks.

Mockup

First view: General filial information and Payment status

Filiales	House number: 9A	Under construction: No	Rented: No
Saúl Santander 9A Payment Status: Pending	Owner		
Robert Smith 10A Payment Status: Complete	Name: Saúl Santander Email: saulsantander@test.com Phone 1: (506) 2343-1111		
Elizabeth Taylor 11A Payment Status: Pending	Resident		
John Brown 12A Payment Status: Complete	Name: Email: Phone 1:		
Mary Ann Allen 13A Payment Status: Complete	Resident		

- Basic information of the filial
- Personal information of owners and the tenants
- Upload files as purchase agreement, conditions for concessions, addendum, etc.
- Message exchange
- Payment statements can control who have outstanding payments

Complete button: Save all the information

Complete

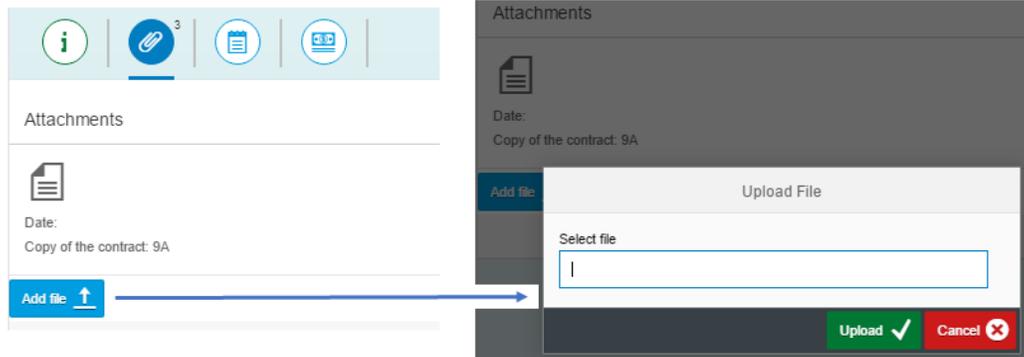

Information icon: Some of the houses have been rented, so for the administrator is important to keep a record of the owner and the tenant. This information can be edited at any time.

Owner
Name: Elizabeth Taylor Email: elitaylor@test.com Phone 1: (506) 2343-3333 Phone2: Additional Address: Heredia
Resident
Name: Rose Jones Email: rosejones@test.com Phone 1: (506) 2343-6666

Edit

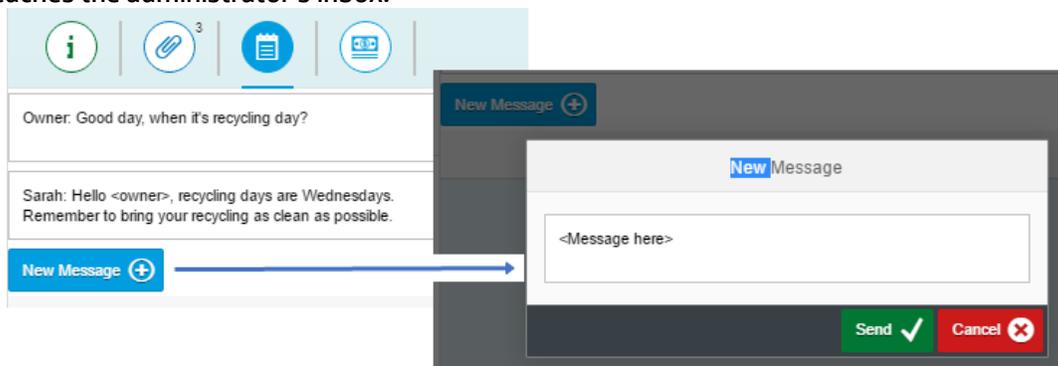

Attachment icon

The administrator can upload important documents such as: contracts, addendums, payment vouchers, special requests, among others.

Messages icon

The idea is to have real-time messages (or closest): If the owner sends a query through a message, the message immediately reaches the administrator's inbox.

Payment Status icon

At the moment, the information displayed on the table will be: date, description, the corresponding amount and payment status (completed or pending). This information can be updated with *Edit* button.

The image shows a user interface for payment status. At the top, there is a navigation bar with icons for information, attachments (with a '3' notification), calendar, and a settings icon. Below the navigation bar, the 'List of Monthly Payments' section displays a table with the following data:

Date	Description	Total Amount	Status	Action
12/30/15, 12:00 AM	Maintenance fee - January	\$100 Units	Complete	Edit
12/31/15, 12:00 AM	Maintenance fee - February	\$100 Units	Complete	Edit
1/1/16, 12:00 AM	Maintenance fee - March	\$100 Units	Pending	Edit

At the bottom right of the table, there is a green 'Complete' button. A blue arrow points from the 'Edit' button in the first row to the 'Complete' button.
