

STORY:

John is a garage owner.

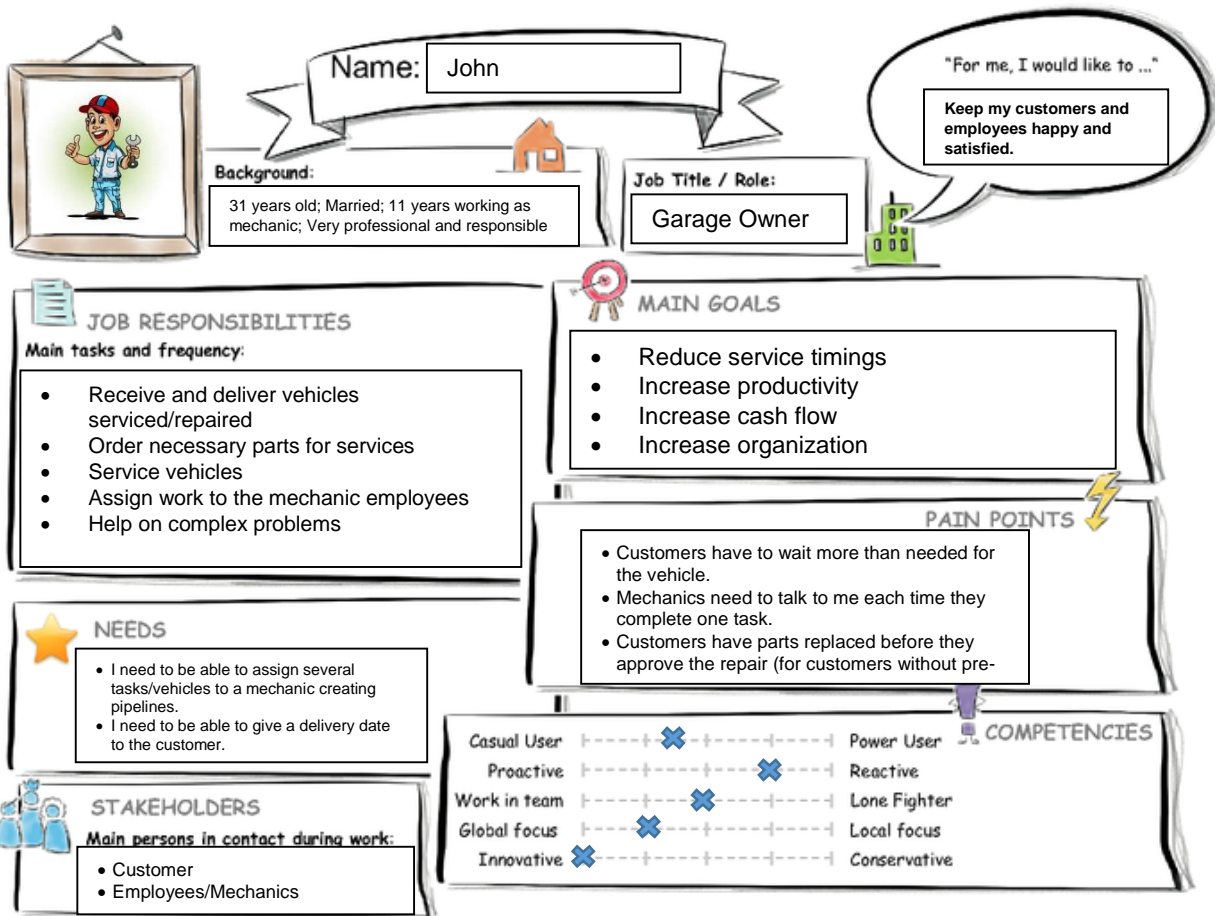

Until now the garage was a small business and he was the only mechanic, however, the customers are happy and the number of vehicles incoming has increased drastically.

John already admitted two more mechanics to help with the prompt delivery of the vehicles but the management of all the vehicle services is becoming a very hard task.

To keep the quality and customer satisfaction, John would love to have one application to help him with the work assignment and dispatch.

This app will allow him to assign the mechanic, provide expected delivery dates and to keep good control on the services pipeline.

Persona:

User Experience Journey:

Introduction to Design Thinking

User Experience Journey

Current User Experience Journey

Duration of the Journey:

Mindset

What is on the Persona's mind while taking the actions of their journey? How do they feel each step of the journey?

Actions

What actions and activities does the Persona take while going thru the journey to achieve their goal?

Touch points

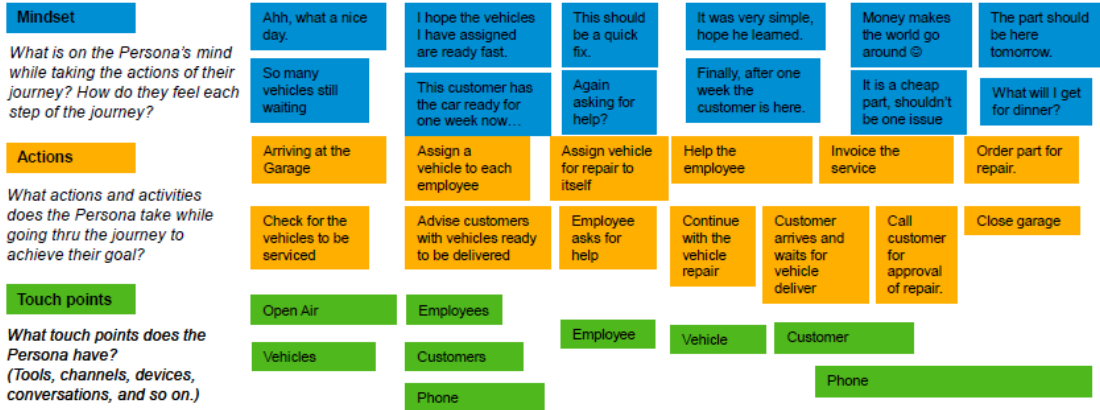

What touch points does the Persona have? (Tools, channels, devices, conversations, and so on.)

Point Of View:

PoV #1:

John, the Mechanic needs a way to **quickly assign vehicle services to an employee** so that **he can increase productivity.**

PoV #2:

John, the Mechanic needs a way to **be able to inform the customer of the expected delivery date for his vehicle** so that **he increases customer's satisfaction.**

PoV #3:

John, the Mechanic needs a way to **quickly identify if for a specific vehicle part substitution is pre-approved by customer** so that **he can reduce service timings and increase productivity.**

PoV #4:

John, the Mechanic needs a way to **have more free time** so that **he can help his employees on complex problems.**
