

## 1. Story

“Acoustic Folium” is a musical event founded by youth organization called CreaTeam that takes place every 1.5 – 2 months. The main idea of this event is to give everyone who wants to play music (it can be already experienced bands or beginners) an opportunity to perform on the musical stage. Organizers announce the date of the next “Acoustic Folium” event and everyone who is brave enough and wants to play on the stage in front of his friends and other event attendees can send an application to the event organizers. Entrance is free of charge.

In the application performer must indicate name of the band (or his own name), e-mail, number of musicians, what kind of music they are playing (style), where do the band come from (do they need a refund for the transportation costs), and what instruments are they playing. If the band is not able to take with them some of the musical instruments that they need for performance (for example drum set or piano), they must indicate in the application that they require this instruments. In this case organizers will try to bring (or rent) this instruments by them own.

Each application is reviewed by the event organizers for approval or rejection according to the possibilities they can provide. Number of participants (usually 10 performers) and the budget is limited, in some cases organizers can not afford to pay for the rent of the full drum set (renting of the drum set is quite expensive, especially if it is needed only to the one of ten performing bands) or pay transportation costs for all of the applicants.

The musician applications approval app will help the event organizers to manage incoming applications (approve or reject them), be prepared to the event (information about participants: number of musicians and instruments they are playing will be stored in program, so it is possible to run the report to print the information about musicians to the person who is responsible for the sound) and automatically compose the preliminary program of the event.

This app could be used not only to the musical even organization, with minor changes it can be used to any event organization where the people sending their applications (with certain criterias) for participation.

## 2. Persona

## 3. User Experience Journey

### Manager User Experience Journey

Duration of the Journey: 10 min

### 3. Mock Up using SAP Fiori Prototyping Kit

### 4. App Prototype
