

## Story:

---

Project Detail Application is a SAP UI5 Application to get details, status and track progress of ongoing projects in an organization. It is targeted basically towards an IT organization to track development life cycle of projects.

Its use can be extended towards non-IT organizations who drive various projects in their organizations. The users can extend to clients also who can be able to track the status of their projects carried on in the organizations.

The application will be very simple to understand and intuitive as it will follow the guidelines of designing SAP Fiori applications. The app aims to reduce the effort and time required for status update meetings within the project members, project leads, business partners etc.

FINAL SUBMISSION:

The screenshot displays the 'Project Management App' interface. On the left, a list of projects (A through G) is shown with their respective completion statuses. The main area shows details for 'Project A', including a 'Project Managing Team' table. Annotations with red circles and arrows point to specific elements: 'Project Completion Status' points to the status bar at the top; 'Timelines for Project' points to the timeline text; 'Organisational Role' points to 'Assistant Manager'; 'Experience' points to 'Exp: 2.6 yr'; and 'Role in Project' points to 'Project Manager'.

Project	Status	Timeline
Project A	20%	20/02/15-25/03/16
Project B	30%	20/02/15-25/03/16
Project C	10%	20/02/15-25/03/16
Project D	50%	20/02/15-25/03/16
Project E	20%	20/02/15-25/03/16
Project F	20%	20/02/15-25/03/16
Project G	20%	20/02/15-25/03/16

Name	Role	Exp
Kiran Shinde Senior Manager	Program Lead	6.5 yr
Max Runner Assistant Manager	Project Manager	2.6 yr

The screenshot displays the 'Project Management App' interface with 'Project C' selected. The main area shows details for 'Project C', including a 'Project Managing Team' table with three members.

Project	Status	Timeline
Project A	20%	20/02/15-25/03/16
